A New American Evolution, by Mark Landau, offers new ways to help ourselves, our nation and our planet and deeper understandings about our psychotic world.

For Immediate Release – (Santa Fe, NM – October 1, 2018)
Our World Needs Our Help – We Really Can Do Something About Our Most Massive Problems – Manmade climate disruption escalates. The corruption of our democracy is nearly complete. We edge closer to nuclear terrorism and war. We are ruled by money. We must face these facts. Those who deny them have their heads in the sand. Most who don't recoil, self-medicate and entertain them away. Unless enough of us get behind doing something about them, they will likely reach their logical end. Mark Landau's *A New American Evolution* contains stunning, new, little known developments and courses of action, ancient, barely appreciated understandings that help make sense of our chaotic dysfunction, a higher perspective on Human Evolution and the Constitutional Convention, our biggest stick of all. Its contents could beget the miracles we dearly need.

"Five Stars Plus for *A New American Evolution*, a manifesto to save our ego-mind dominated, greedy asses. I experience this read as an essential culmination of my 35 years and some 5,000 guests, and their book content, shared in broadcasting on Transitions Radio Magazine (TRM). Let's save our world. This book is a Waymaker." Alan Hutner, Founding Host of TRM

"Mark's book offers a vision, facts, practical actions, and deep understandings that can help the planet. Read it." Susan Shumsky, author: *Divine Revelation*
